

Argo Group: Driving Growth and Value for Shareholders

May 2019

Forward-Looking Statements

This presentation may include forward-looking statements, both with respect to Argo Group and its industry, that reflect our current views with respect to future events and financial performance. These statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform act of 1995. Forward-looking statements include all statements that do not relate solely to historical or current facts, and can be identified by the use of words such as “expect,” “intend,” “plan,” “believe,” “do not believe,” “aim,” “project,” “anticipate,” “seek,” “will,” “likely,” “assume,” “estimate,” “may,” “continue,” “guidance,” “objective,” “outlook,” “trends,” “future,” “could,” “would,” “should,” “target,” “on track,” and similar expressions of a future or forward-looking nature. All forward-looking statements address matters that involve risks and uncertainties, many of which are beyond Argo Group’s control. Accordingly, there are or will be important factors that could cause actual results to differ materially from those indicated in such statements and, therefore, you should not place undue reliance on any such statements. We believe that these factors include, but are not limited to, the following: 1) unpredictability and severity of catastrophic events; 2) rating agency actions; 3) adequacy of our risk management and loss limitation methods; 4) cyclicality of demand and pricing in the insurance and reinsurance markets; 5) statutory or regulatory developments including tax policy, reinsurance and other regulatory matters; 6) our ability to implement our business strategy; 7) adequacy of our loss reserves; 8) continued availability of capital and financial resources; 9) retention of key personnel; 10) competition; 11) potential loss of business from one or more major insurance or reinsurance brokers; 12) our ability to implement, successfully and on a timely basis, complex infrastructure, distribution capabilities, systems, procedures, and internal controls, and to develop accurate actuarial data to support the business and regulatory and reporting requirements; 13) general economic and market conditions (including inflation, volatility in the credit and capital markets, interest rates, and foreign currency exchange rates); 14) the integration of businesses we may acquire or new business ventures we may start; 15) the effect on our investment portfolios of changing financial market conditions including inflation, interest rates, liquidity and other factors; 16) acts of

terrorism or outbreak of war; 17) shareholder activism and 18) availability of reinsurance and retrocessional coverage, as well as management’s response to any of the aforementioned factors.

In addition, any estimates relating to loss events involve the exercise of considerable judgments and reflect a combination of ground-up evaluations, information available to date from brokers, market intelligence, initial tentative loss reports, and other sources. The actuarial range of reserves and management’s best estimate is based on our then-current state of knowledge including explicit and implicit assumptions relating to the pattern of claim development, the expected ultimate settlement amount, inflation and dependencies between lines of business. Our internal models are used to consider the distribution for reserving risk around this best estimate and predict the potential range of outcomes. However, due to the complexity of factors contributing to the losses and preliminary nature of the information used to prepare these estimates, there can be no assurance that Argo Group’s ultimate losses will remain within the stated amount.

The foregoing review of important factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included herein and elsewhere, including the risk factors included in our most recent reports on Form 10-K and Form 10-Q and other documents of Argo Group on file with or furnished to the U.S. Securities and Exchange Commissions (“SEC”). Any forward-looking statements made in this presentation are qualified by these cautionary statements, and there can be no assurance that the actual results or developments anticipated by Argo Group will be realized, or even if substantially realized, that they will have the expected consequences to or effects on, Argo Group or its business or operations. Except as required by law, Argo Group undertakes no obligation to update publicly or revise forward-looking statements, whether as a result of new information, future developments or otherwise.

Argo Group – Maximizing Value for Shareholders Through Commitment to Strong Stewardship

Strategy Driving Shareholder Value

Company performance is top among peers and exceptional relative to the market overall

Our Board's Commitment to Shareholders and Good Governance

Our Board of Directors is committed to ensuring strong corporate governance practices including its proactive refreshment program and shareholder-friendly governance practices

Voce's Campaign of Misinformation and Falsehoods

Voce has deliberately avoided the truth in order to engage in a campaign of misinformation and outright falsehoods with the hopes of creating an overwhelming appearance of impropriety as a means to gain Board seats

The truth is that our oversight and governance of the company is strong and serves investors well. Argo has the right Board and management team to continue our best-in-class performance and stewardship.

Argo's Board and Management Team Consistently Delivers Shareholder Value

Our Board and management team have built a distinctive specialty insurance franchise that delivers sustainable long-term shareholder value through top line growth and continuous improvement in operating performance

- **Best-in-class total shareholder returns**

- Argo 1-year total shareholder return of 35.9% vs. peer median¹ of 11.8%
- Argo 3-year total shareholder return of 88.8% vs. peer median¹ of 43.8%
- Argo 5-year total shareholder return of 164.5% vs. peer median¹ of 74.0%

- **Execution: Our fundamental operating strategy has and is driving results and value creation**

- Q1'19 ROAE of 20.1%, adjusted operating ROAE of 9.1%, combined ratio of 94.8% (below 100% drives profitability)
- Proven track record of delivering profitable growth: 5-year gross written premium CAGR of 9.4%²
- From 12/31/10 to 3/31/19, GAAP book value grew from \$1.6BN to \$1.9BN and \$655 million of capital was returned to shareholders

- **Positive outlook and clear priorities: Argo has a well-defined strategic plan and targets to continue to drive economic value for all shareholders**

- Underwriting margin: 5% - best-in-class; 100bps improvement per year for the next two years driven by expense ratio improvements
- ROAE: risk free rate plus 700bps – 10% currently; excess of cost of capital
- BVPS Growth: 10%+ reflecting ROAE target and investment contribution

- **Shareholder value: Argo has delivered superior total shareholder return over the past five years and our positive financial outlook supports continued value creation for shareholders**

Our Board's Commitment to Stewardship

Argo's Board is keenly involved in approving corporate strategies, executive compensation and oversight of the risks and opportunities embedded in our business. Thoughtful Board composition and refreshment is and has been a priority

We have strong and sound corporate governance practices designed to promote shareholder interests

Our Board has demonstrated we have the necessary mix of skills to oversee near- and long-term strategy, including deep insurance industry knowledge, significant finance and capital markets expertise, and business operations backgrounds

We have proactively added directors with diverse backgrounds and perspectives, broadening our range of representation while enhancing the digital strategy, global operations, and corporate governance expertise of our Board. We are currently onboarding 5 of 13, rotating our committee chairs

The Board's oversight is greatly enhanced by the insight that our longer-tenured directors provide in an industry marked by its long business cycles

Our highly independent Board ensures the alignment of company strategy with shareholder value creation

Voce's Campaign of Misinformation and Falsehoods

- X** Voce has not engaged in constructive dialogue with Argo or shown any credible ideas to promote long-term shareholder value
- X** Voce's nominees are not additive to our director mix either in terms of skills or depth of high quality industry experience
- X** Voce's is attempting to disrupt an effective board refreshment process that is deliberate, well-crafted, and introduces fresh thinking, all while driving continuing performance in key elements of our successful strategy. Such disruption is not in Argo's shareholders' interest
- X** Voce's proposal to remove directors with deep institutional knowledge will only disrupt continuity and succession planning
- X** Voce's allegations are false and misleading, and show a lack of due diligence and basic understanding of the Company and industry
- X** Voce has a track record of destroying shareholder value at the companies it targets
- X** Voce is a short-term investor, selling its stakes on average after 1.75 – 2.25 years

"ARGO produced strong operating (non-GAAP) results in 1Q19, including solid premium growth and improved core loss and expense ratios versus 1Q18. **Management continues to enhance ARGO's operations via investments in technology and people. We believe the company's operating performance is poised to further benefit from these investments.**"

 COMPASS POINT
RESEARCH & TRADING, LLC

April 29, 2019

"Argo Group reported an exceptional adjusted operating EPS of \$1.18... We believe the company's prospects are improving. **Our analysis shows that ARGO Group is one of the best reserved companies among insurers we cover**, with roughly \$250 million of excess reserves in its domestic operation alone... Our 2019 and 2020 top line growth is projected at 7% and 6% respectively. **That's because Argo aggressively buys its shares, and has a franchise, including its E&S operation, that is conducive to growth.**"

JMP

April 29, 2019

"We believe Argo has the right mix of business for the market at hand (predominantly specialty insurance), that its core E&S business is a valuable franchise, and that **ongoing investments in digital capabilities and emerging growth markets across the globe will pay dividends down the road.** Recent quarters have shown that its digital investments are beginning to bear fruit, with what we view as a modest overall amount of investment."

RAYMOND JAMES®

February 20, 2019

"We believe the company is **positioned to report continuing improvements in the expense / combined ratios...**

We believe the upside to our estimates range between \$0.35-\$0.85 per share over the next 18-24 months (considering **management has outlined an expectation of improving underwriting results by 200-300 bp** while we currently model improvement of ~125 bp), **which could position ARGO to report a double-digit ROE by 2020.**"

A Argo Continues to Drive Its Digital Transformation

Over the last 5 years Argo has achieved a 43% improvement in GWP per employee

Transform Core Business

- Processed over **\$1BN GWP** through our newly implemented flagship policy admin system
- Developed a product for immediate pricing on Owners Interest Casualty policies, helping policies bound in that business grow 16% YOY to start
- Launched **Argo Risk Tech**, a custom, sensor-based technology that allows retail merchants to manage risk through reduction in on-premises accidents
- Partnered with a startup cybersecurity MGA for our cyber book
- Built a **data platform** for the retrieval, processing, and machine learning on proprietary and external data sources
- Invested in a business that uses **machine learning** to automate data entry with an initial use case for streamlining policy submissions
- Employed robotic process automation (“**RPA**”) across multiple use cases

Explore Adjacencies

- Built a self-serve **digital portal** driving engagement with Argo’s brokers and insureds
- Scaled **Protector**, our in-house digital platform in Brazil, to handle **BRL 50.2MM in GWP**
- Invested in a startup helping brokers focus on risk advisory through custom built digital tools and automation of back-office tasks

Disrupt Traditional Insurance

- Incubated a startup focused on enabling stronger membership engagement for affinity groups and associations - 33 clients signed up in 1 year representing **~500K users**
- Invested in the largest payment processor of **crypto currencies** as a way to explore **blockchain** and insurance applications in the space

A Argo's 3 Pillars to Digital Strategy

**Digitize distribution
& secure less
expensive
alternative channels**

*Benefits top line growth and the
expense ratio*

- Owners Edge (Construction) - Doubled planned premium for the unit in 2018 while reducing number of underwriters
- 85% of quotes provided in minutes via advanced underwriting algorithm and reduced form; over 95% of brokers never go back to paper submissions
- Quick Quote Factory – Integrated technology platform launching across Argo franchise in 2019; suite of quick quote applications across business lines enabling innovation with little overhead

**Leverage data to
become the fastest
and smartest risk
assessor**

*Increases underwriting efficiency
(expense ratio + top line growth) as well
as consistency (reducing loss ratio)*

- Argo Pro Insights (launched at the end of 2018) pulls over 3 terabytes of data weekly on public companies and applies advanced machine learning algorithms to both find unique risk factors in public companies for D&O as well as for probabilities for claims, saving thousands of hours of underwriter time
- Building upon Argo Pro Insights, expanding use of external data to other lines of business in 2019

**Automate the
process freeing
people up for high-
value work**

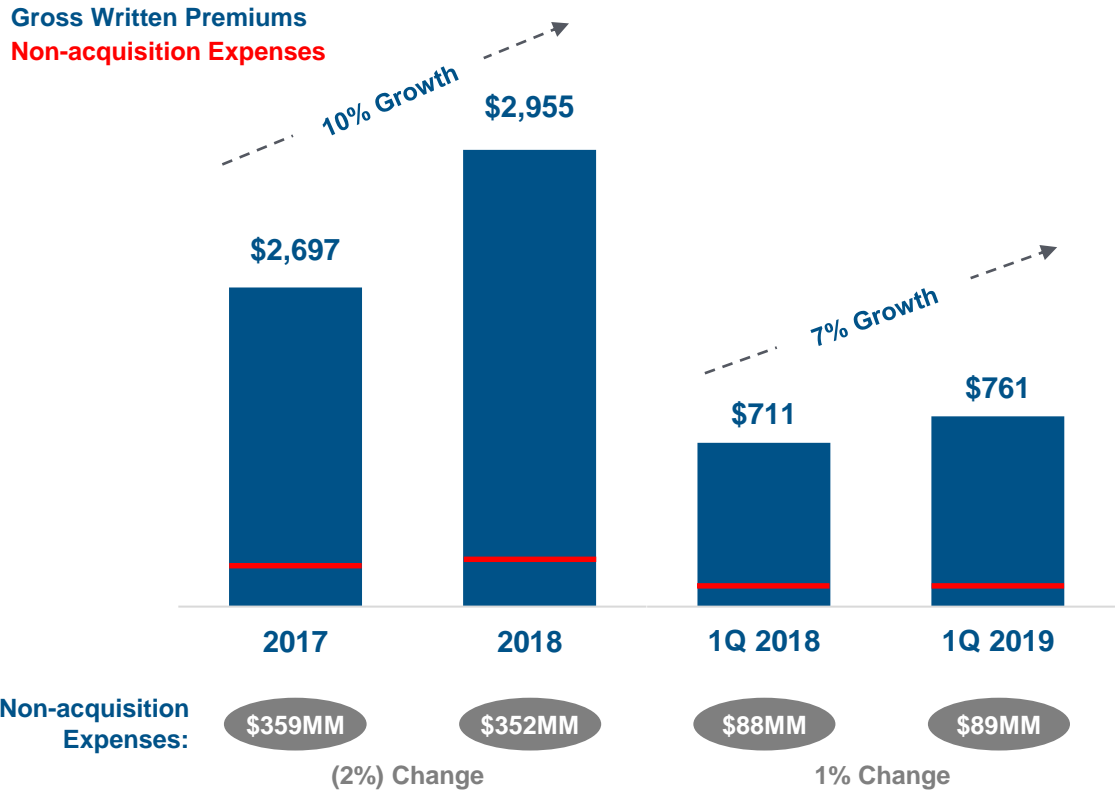

*Benefits top line growth and the
expense ratio*

- Casualty & Construction underwriting system now handles 100% of the process (hundreds of submissions per day with over 75% of those submissions handled in under 1 hour now)
- 2019 will see automation of other key functions driving scale and efficiency as well as expanding automation to other high volume business units

A Argo 2.0 Process and Technology Program – Enables Cost Effective Scale

Argo began a process called Argo 2.0 approximately 5 years ago; investments in technology, process optimization and outsourcing have enabled profitable growth and the financial benefits will accelerate as additional scale is achieved

Gross Written Premiums

Concluding Remarks

Our Board's Commitment to Stewardship

Argo's Board is keenly involved in approving corporate strategies, executive compensation and oversight of the risks and opportunities embedded in our business. Thoughtful Board composition and refreshment is and has been a priority

We have strong and sound corporate governance practices designed to promote shareholder interests

Our Board has demonstrated we have the necessary mix of skills to oversee near- and long-term strategy, including deep insurance industry knowledge, significant finance and capital markets expertise, and business operations backgrounds

We have proactively added directors with diverse backgrounds and perspectives, broadening our range of representation while enhancing the digital strategy, global operations, and corporate governance expertise of our Board. We are currently onboarding 5 of 13, rotating our committee chairs

The Board's oversight is greatly enhanced by the insight that our longer-tenured directors provide in an industry marked by its long business cycles

Our highly independent Board ensures the alignment of company strategy with shareholder value creation

Strong and Sound Corporate Governance

Voce's Campaign

6

Concluding Remarks

Voce's Campaign Overview

- X** Voce has not engaged in constructive dialogue with Argo or shown any credible ideas to promote long-term shareholder value
- X** Voce's nominees are not additive to our director mix either in terms of skills or depth of high quality industry experience
- X** Voce's is attempting to disrupt an effective board refreshment process that is deliberate, well-crafted, and introduces fresh thinking, all while driving continuing performance in key elements of our successful strategy. Such disruption is not in Argo's shareholders' interest
- X** Voce's proposal to remove directors with deep institutional knowledge will only disrupt continuity and succession planning
- X** Voce's allegations are false and misleading, and show a lack of due diligence and basic understanding of the Company and industry
- X** Voce has a track record of destroying shareholder value at the companies it targets
- X** Voce is a short-term investor, selling its stakes on average after 1.75 – 2.25 years

Voce Engagement Timeline

Rather than engage in a constructive dialogue, Voce has built a campaign based on falsehoods and misdirection in order to try to make a quick profit at the expense of our long-term shareholders. We also note that Voce has not demonstrated any experience in insurance company operating strategies or execution challenges

- ✓ **Argo management team reached out to Voce within two days after they emailed our CEO in January 2019**
-

- ✓ **Argo senior leaders met with Voce in person and subsequently had a conference call. At no time did Voce indicate any concern to us about:**
 - An intention to file a 13D
 - Corporate governance
 - Board or management team effectiveness
-

- ✓ **The Argo Board readily agreed to Voce's requested meeting with directors**
 - ✗ Voce abruptly canceled this meeting in concert with release of their public letters announcing a proxy fight
 - ✗ Voce has been unwilling to engage with the Argo board
-

- ✓ **As well, the Argo Board offered to interview Voce's Board nominees, as it would review any candidate for the Board**
 - ✗ Voce twice rejected the Board's outreach

Voce's Nominees Will Not Enhance Breadth of Skills, Depth of Experience, or Relevant Industry Knowledge of Current Board

Argo has stringent criteria and conducts a thorough and extensive evaluation process for all director nominee candidates

Voce's Hypocritical Reasoning

- Voce criticizes overlaps on Argo's board, yet fails to mention that **3 of Voce's 5 nominees worked at AIG in senior management roles in lead-up to its government bail-out**

Falsehoods About Offices and Investment Properties Cannot Detract from Argo’s Value-Enhancing Consolidation Efforts

Voce combines falsehoods and misdirection in its attempt to discredit what is a cost-conscious, focused real estate program. The truth was easily available to anyone who chose to ask the Company a few simple questions or conduct a check of New York City public real estate records

	Falsehoods & Misdirection	The Facts
REAL ESTATE	X Voce claims there is a glass penthouse on top of our NYC headquarters	<ul style="list-style-type: none"> ✓ There is no penthouse apartment above our New York offices ✓ There is only a meeting room with a large table surrounded by glass walls ✓ Yes, we do have a corporate apartment in New York used by many employees, but it is not the fancy place described by Voce
	X Voce denigrates Argo’s NYC headquarters’ cost and location	<ul style="list-style-type: none"> ✓ The relocation of our New York City office was a deliberate, cost-efficient move to consolidate multiple regional offices ✓ The cost per square foot cited by Voce is incorrect. Following the move, we are spending less on rent than it would have cost to remain at our previous locations ✓ Location is adjacent to many of the technology companies that we collaborate with and compete with for talent
	X Voce implies our London offices are inappropriately located	<ul style="list-style-type: none"> ✓ The acquisition of Ariel brought a large team who were housed in separate offices ✓ We consolidated the Ariel offices and our existing offices into one space located where virtually all similarly-sized competitors’ UK operations are headquartered ✓ The move to a combined space achieved greater cost efficiency than remaining in our previous locations
	X Voce tries to paint a picture of our office spaces being outfitted with expensive art	<ul style="list-style-type: none"> ✓ The cumulative cost of every piece of artwork carried on our balance sheet for all of our office spaces worldwide over the past two decades is less than a million dollars ✓ Most of the art in our offices has been acquired in local communities to showcase the talent of local artists
	X Voce claims we own “Lavish Corporate Apartments” in Miami	<ul style="list-style-type: none"> ✓ The properties identified in Voce’s press release are not corporate housing, but rather part of our investment property portfolio: they are income-producing assets purchased in connection with a Section 1031 like-kind real estate exchange following the sale of a commercial property in California

Sensationalist Claims About Corporate Aircraft Program Based on Fundamentally Wrong Analysis

Voce has chosen to disregard the truth in favor of fabricating a narrative of excess, when in reality the program is right-sized for business needs and enables effective execution in an industry built on personal relationships

CORPORATE AIRCRAFT PROGRAM	Falsehoods & Misdirection	The Facts
	<ul style="list-style-type: none"> <li data-bbox="189 529 962 634">✗ Voce claims we attempted to hide ownership of an aircraft from our investors through the use of some kind of off balance sheet structure <hr/> <li data-bbox="189 665 923 729">✗ Voce says this plane “crisscross[ed] the globe at a dizzying pace”, travelling to multiple exotic locales <hr/> <li data-bbox="189 872 956 976">✗ Voce tries to make it seem as though our CEO’s lack of reimbursements means Argo is paying for his personal use of the corporate aircraft program <hr/> <li data-bbox="189 1043 823 1108">✗ Voce uses insinuation to raise questions about the Company’s oversight of its aircraft program 	<ul style="list-style-type: none"> <li data-bbox="1045 529 1792 594">✓ All assets and liabilities related to aircraft usage have been reflected on the Company’s balance sheet <hr/> <li data-bbox="1045 665 1804 729">✓ The Company did not use corporate aircraft to transport our CEO to all of the destinations described by Voce <li data-bbox="1045 753 1750 786">✓ The aircraft was not owned or used exclusively by Argo <li data-bbox="1045 808 1599 841">✓ Voce’s flight log is an irrelevant red herring <hr/> <li data-bbox="1045 872 1823 1015">✓ While we do, on occasion, allow our executives to arrange for use of corporate aircraft for personal trips, they do so by paying the vendor directly and at their own expense and no incremental cost is incurred by the Company <hr/> <li data-bbox="1045 1043 1837 1300">✓ The use of corporate aircraft is audited quarterly by our internal auditors and reported to the Argo Board Audit Committee on a quarterly basis to ensure proper allocation of imputed tax benefits attributable to executives when non-business travelers accompany them on business trips, and this information is reported on a quarterly basis to the Audit Committee of the Board

Client-Targeted Sponsorship Programs Strengthen our Business in a Cost-Effective Manner

Our sponsorship programs costs on average less than \$1mm per year, materially less than available information for others in the industry, to provide client-targeted programming that is a key element of our success and also revenue-generating

SPONSORSHIP PROGRAM

Falsehoods & Misdirection

- X Voce says our sponsorship programming is focused on flashy events that are unconnected to our business

- X Voce criticizes the costs of what is described as “vanity” sponsorship programming

The Facts

- ✓ Our sponsorships are strategically aligned with our business (i.e. Formula E - clean energy), non-traditional, inexpensive as compared to traditional corporate activities such as golf events, and carried out in multiple locations such that the cost is spread across multiple client events
- ✓ Our Bermuda-focused sailing events serve to raise Argo’s profile in Bermuda as both a (re)insurer and as a competitor for top local talent
- ✓ We make cost-effective sponsorship selections and have spent on average less than \$1 million per year over the last five years for named sponsorships
- ✓ The revenue we generate from sponsorship opportunities meaningfully exceeds our costs and allows us to deepen our relationships with key clients

Compensation Overview

Compensation program thoughtfully designed to align pay and performance and incentivize sound risk management

Target CEO Pay Mix

Key Compensation Metrics

Pre-tax operating income

- Most accurate reflection of our short-term financial and operational performance

Growth in book value per share (BVPS)

- Comprehensive long-term measure of our financial strength and ability to enhance shareholder value
- Achieved through a combination of underwriting income, total return on our invested assets and capital management

Annual Incentive Plan

- Earned based on performance against **pre-tax operating income** target, and subject to individual performance modifier of up to +/- 30%, based on achievement of short-term, operations-focused, individual goals established at beginning of year
- Awards subject to 50% threshold and 200% maximum. If Argo does not achieve 50% of plan pre-tax operating income target, no awards are paid

No modification based on individual performance in 2018. Annual incentives earned at 78% of target for CEO and between 35% and 102% for NEOs

Long-Term Equity Incentive Plan

- Target award is modified based on **BVPS** and performance against long-term individual performance objectives
- Long-term individual goals are forward-looking and tied to key strategic objectives

No modification based on individual performance in 2018. Long-term awards earned at 50% of target for all NEOs

Incentivizing Continued Outperformance

*2018 performance-based equity awards incentivize achievement of ambitious three-year **stock price performance** and **expense ratio reduction** goals*

- To incentivize continued outperformance over the next several years, in November 2018, the Human Resources Committee granted 3-year performance-based equity awards to key executives
- Awards are tied to challenging **stock price** and **expense ratio hurdles**, the achievement of which we believe will drive outperformance
- Awards granted to six key executives
 - For CEO, 75% of awards are tied to stock price targets and 25% to expense ratio goals
 - Weightings for other NEOs vary by individual, with awards weighted either 75/25 or 50/50 between stock price and expense ratio goals
- Automatic forfeiture of entire award if stock price at end of 3-year performance period is below the grant date stock price
- Earned shares are subject to an additional 1-year holding period following the end of the 3-year performance period
- Awards subject to Argo's clawback policy

Stock Price Targets

- 2018 Performance Awards are tied to challenging stock price goals, which require 25% growth for target payouts
- At least 40% growth in our stock price is required for the maximum payout at 200% of target

Expense Ratio Reduction

- In recognition of the importance of reducing our expense ratio, the HR Committee tied a significant portion of the 2018 Performance Awards to expense ratio hurdles
- Expense ratio targets based on full year result by end of 2021
- No payout for below target performance
- Our approach in the past has been to disclose hurdles and achievement levels retroactively to provide transparency to investors without the risks of disclosing competitively sensitive information in advance

Highlights of Our 2019 Incentive Plan Proposal

The 2019 Omnibus Incentive Plan will allow us to grant equity and cash awards to further align the interests of our employees and non-employee directors with those of shareholders

2019 Omnibus Incentive Plan

- Our Board is **requesting shareholder approval of the 2019 Omnibus Incentive Plan**, which will replace the previous 2007 and 2014 Long-Term Incentive Plans
- The 2019 plan requests a **total of 1,885,000 shares, expected to last up to three years**
- Equity awards granted under the plan help Argo attract and retain top talent as we continue to expand, and establish a **strong link between pay and our Company's key strategic goals**

Plan Enhances Compensation Philosophy

Approval of the 2019 Omnibus Incentive Plan will continue to align the interests of award recipients with our shareholders by awarding long-term incentives conditioned on the achievement of strategic performance targets

Plan Governance Highlights

- ✓ Minimum vesting period of one year from grant date
- ✓ Dividends and dividend-equivalent rights subject to same vesting requirements as underlying award
- ✓ No liberal share recycling of options or stock appreciation rights
- ✓ Minimum 100% fair market value exercise price
- ✓ No repricing or cash buyout of underwater options or stock appreciation rights without shareholder approval
- ✓ No liberal change-in-control definition
- ✓ No excise tax gross-ups

Responsible and Effective Use of Equity

Our Board of Directors is committed to using equity strategically and responsibly in order to best align incentives with shareholder interests throughout our entire organization

Reasonable Historic Burn Rate

Annual Share Usage Under 2016 – 2018 Equity Compensation Program

	2016 ⁽¹⁾	2017 ⁽¹⁾	2018
Stock Options / SARs Granted	1,086,275 ⁽²⁾	--	--
Full-Value Awards Granted	330,311	270,745	458,715
Total Shares Granted	1,416,586	270,745	458,715
Shares Outstanding	34,691,618	34,457,098	33,922,009
Annual Share Usage	4.1%	0.8%	1.4%

3-year average of 2.1%

After taking into account remaining shares from prior plans and newly requested shares, potential dilution of 9.6% is in line with peers

Broad-Based Use of Equity

Plan benefits employees throughout the organization

- Awarding equity to a broad-base of employees helps Argo attract and retain superior talent and incentivize long-term shareholder value creation
 - 10% of total employees received equity compensation in 2018
 - 49% of total shares awarded were granted to non-executive employees
- Directors receive modest \$70,000 award of RSUs as part of their annual director compensation

(1) Grants adjusted to include the effects of Argo Group's 15% stock dividend paid on March 21, 2018
 (2) Includes 623 stock-settled SARs granted in 2016 and 1,085,652 cash-settled SARs that were converted to stock-settled SARs in 2016

Board Oversight of Risk Management

Board oversees development of Risk Management Policy and Chief Risk Officer's application of that Policy

Board-Level Responsibilities

- Ensure clear accountabilities are defined and a **risk aware culture** is fostered in line with Argo's Purpose and Values
- **Retain primary responsibility** for the Risk Management Policy and oversee compliance with the Policy
- Ensure Chief Risk Officer has **direct line of communication** with Board
- Ensure **independence of Risk Management function** from underwriting and business operations
- Ensure Chief Risk Officer and Risk Management function have **access to all necessary personnel and information** to ensure compliance with our Policy

Role of Chief Risk Officer

- **Implement, maintain, and ensure compliance** with the Policy; report to Board and CEO or CFO as appropriate
- **Develop processes** to ensure consistent application of risk management framework across entire organization
- Support Board in articulating risk appetite and **monitor risk exposures** against agreed risk tolerance limits
- **Recommend risk response and treatment options** if identified risks fall outside the Company's risk tolerance

Goals of Risk Management Framework

Risk Governance & Culture

- Define clear accountabilities and foster a risk aware culture in line with Argo's Purpose and Values

Risk Identification and Prioritization

- Ensure current and emerging risks that could materially impact our financial resources, volatility of resources or the viability of our business model are understood and articulated in a timely manner

Risk Appetite, Tolerances and Limits

- Board defines clear boundaries for acceptable risk taking are defined by the Board

Risk Management and Controls

- Ensure conscious management decisions are taken to secure opportunities and bring threats within acceptable bounds

Risk Reporting and Communication

- Clearly communicate and cascade risk information through all levels of the organization to support decision-making

Governance and Oversight of Sustainability

Environmental, Social and Governance (ESG) factors are overseen by our Board and embedded throughout Argo's operations, coordinated by our Sustainability Working Group

Board of Directors

- ✓ The Risk & Capital Committee receives periodic updates on material risks, including sustainability-related threats and opportunities

Sustainability Working Group (SWG)

- ✓ Coordinates sustainability activities and plans across the organization and meets on a quarterly basis
- ✓ Dedicated to the oversight of Sustainability and ESG policies, processes and issues facing the organization
- ✓ Chaired by the Chief Risk Officer, responsible for coordinating sustainability initiatives, including periodic internal reporting
- ✓ Reports each quarter to the Enterprise Risk Management Steering Committee, summarizing the activities of the SWG and outlining progress made with the sustainability action plan

Enterprise Risk Management (ERM)

- ✓ ERM strategy is rooted in our vision for managing risk: Risk intelligence enables Argo to achieve its strategic objectives by taking appropriate risks and exploiting opportunities
- ✓ Goal is to ensure Argo employees have access to the appropriate tools, processes and training to enable them to make informed and timely risk-based decisions

Argo's Focus on Climate Change

Our ERM function recognizes the potential impact of climate change on Argo's business operations, insurance products and clients as a key risk that demands our attention and response

- Our Board's rigorous oversight process regards climate risk as it would other significant risks to our business and regularly evaluates potential challenges and opportunities
- We regularly perform stress test scenarios that consider the potential impact of high-carbon assets within our investment portfolio on its capital adequacy
- These stress test scenarios results have been reported to the ERM Steering Committee and Risk & Capital Committee of the Argo Group Board

Argo was a founding member of ClimateWise, a coalition which supports the insurance industry to better communicate, disclose and respond to the risks and opportunities associated with the climate-risk protection gap

Corporate Responsibility Initiatives

Human Capital Management

Maintaining and developing a diverse workforce is key to our success and fundamental to our culture

- **Training and Development:** *Training* magazine ranked Argo among the top 125 organizations in the world in 2019 for our successful learning and development programs
- **Employee Engagement:** Argo provides innovative, creative experiences and tools to maximize engagement, connectedness, and development across our organization

Information Security & Data Protection

The smart, accurate and safe use of data is essential to our long-term success and growth

- **Cybersecurity:** We are committed to continued internal audits of security systems and cyber risk measures, as well as making all necessary enhancements to ensure the safety of private information
- **Privacy Promise:** We recognize the importance of maintaining the privacy of our customers' data. We have effective controls and processes in place to protect our customers' information

Environment

Argo underscores its role as a responsible corporate citizen by working to minimize the environmental impact of our office services, facilities and technology operations

- **Office Locations:** We are actively improving the environmental impact of our operations, from moving to a greener workspace in London to improving our recycling and waste management practices within each office. As much as possible, we operate in a paperless environment, and we encourage employees to recycle more and reduce personal waste

Community

Our purpose of securing the future applies not only to our clients, but to the communities in which we live and work

- **The Argo Foundation:** Invests in programs and services that support the health and well-being of Bermuda's youth.
- **Volunteering:** Argo employees volunteer in local education, arts and social services fundraising events, and Argo amplifies our employees' charitable donations through our Matching Funds program
