

Argo Group Investor Presentation

May 2020

Forward-Looking Statements

This presentation may include forward-looking statements, both with respect to Argo Group and its industry, that reflect our current views with respect to future events and financial performance. These statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include all statements that do not relate solely to historical or current facts, and can be identified by the use of words such as "expect," "intend," "plan," "believe," "do not believe," "aim," "project," "anticipate," "seek," "will," "likely," "assume," "estimate," "may," "continue," "guidance," "objective," "outlook," "trends," "future," "could," "would," "should," "target," "on track" and similar expressions of a future or forward-looking nature. All forward-looking statements address matters that involve risks and uncertainties, many of which are beyond Argo Group's control. Accordingly, there are or will be important factors that could cause actual results to differ materially from those indicated in such statements and, therefore, you should not place undue reliance on any such statements. We believe that these factors include, but are not limited to, the following: 1) unpredictability and severity of catastrophic events; 2) regulatory or rating agency actions; 3) adequacy of our risk management and loss limitation methods; 4) cyclical nature of demand and pricing in the insurance and reinsurance markets; 5) statutory or regulatory developments including tax policy, reinsurance and other regulatory matters; 6) our ability to implement our business strategy; 7) adequacy of our loss reserves; 8) continued availability of capital and financing; 9) retention of key personnel; 10) competition; 11) potential loss of business from one or more major insurance or reinsurance brokers; 12) our ability to implement, successfully and on a timely basis, complex infrastructure, distribution capabilities, systems, procedures and internal controls, and to develop accurate actuarial data to support the business and regulatory and reporting requirements; 13) general economic and market conditions (including inflation, volatility in the credit and capital markets, interest rates and foreign currency exchange rates); 14) the integration of businesses we may acquire or new business ventures we may start; 15) the effect on our investment portfolios of changing financial market conditions including inflation, interest rates, liquidity and other factors; 16) acts of terrorism or outbreak of war; 17) availability of

reinsurance and retrocessional coverage, as well as management's response to any of the aforementioned factors and; 18) costs associated with shareholder activism and the independent directors' review of governance and compensation matters.

In addition, any estimates relating to loss events involve the exercise of considerable judgment and reflect a combination of ground-up evaluations, information available to date from brokers and cedents, market intelligence, initial tentative loss reports and other sources. The actuarial range of reserves and management's best estimate is based on our then current state of knowledge including explicit and implicit assumptions relating to the pattern of claim development, the expected ultimate settlement amount, inflation and dependencies between lines of business. Our internal capital model is used to consider the distribution for reserving risk around this best estimate and predict the potential range of outcomes. However, due to the complexity of factors contributing to the losses and the preliminary nature of the information used to prepare these estimates, there can be no assurance that Argo Group's ultimate losses will remain within the stated amount.

The foregoing review of important factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included herein and elsewhere, including the risk factors included in our most recent reports on Form 10-K and Form 10-Q and other documents of Argo Group on file with or furnished to the U.S. Securities and Exchange Commission ("SEC"). Any forward-looking statements made in this press release are qualified by these cautionary statements, and there can be no assurance that the actual results or developments anticipated by Argo Group will be realized or, even if substantially realized, that they will have the expected consequences to, or effects on, Argo Group or its business or operations. Except as required by law, Argo Group undertakes no obligation to update publicly or revise any forward-looking statement, whether as a result of new information, future developments or otherwise.

Distinctive Specialty Insurance Platform

Underwriter of specialty insurance and reinsurance with meaningful scale

- Gross Written Premium of more than \$3 billion

Strategically located in select major insurance centers

- Significant presence in the U.S., London and Bermuda markets, with a focus on U.S. domiciled risks

Broad and strong producer relationships

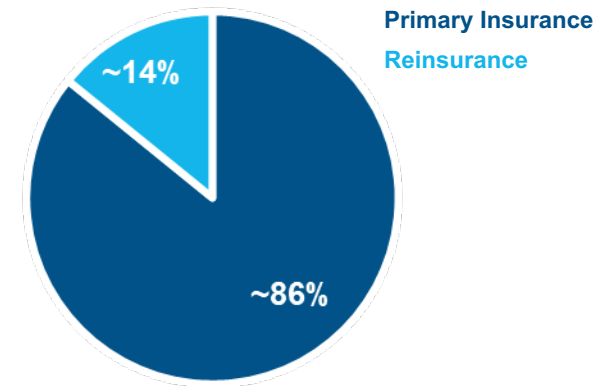

- Agents, brokers, wholesalers, MGAs and coverholders

Strong balance sheet with modest financial leverage

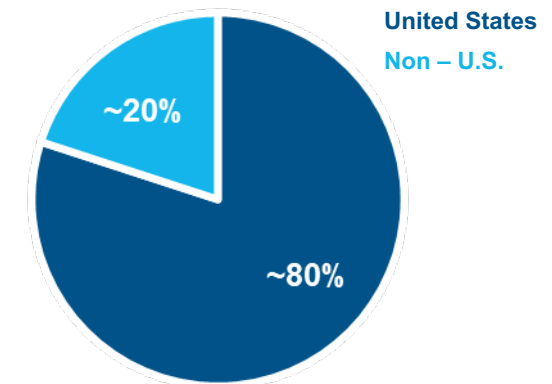

- Disciplined capital allocation process to maximize returns

2019 GWP: \$3,129MM

Business Type

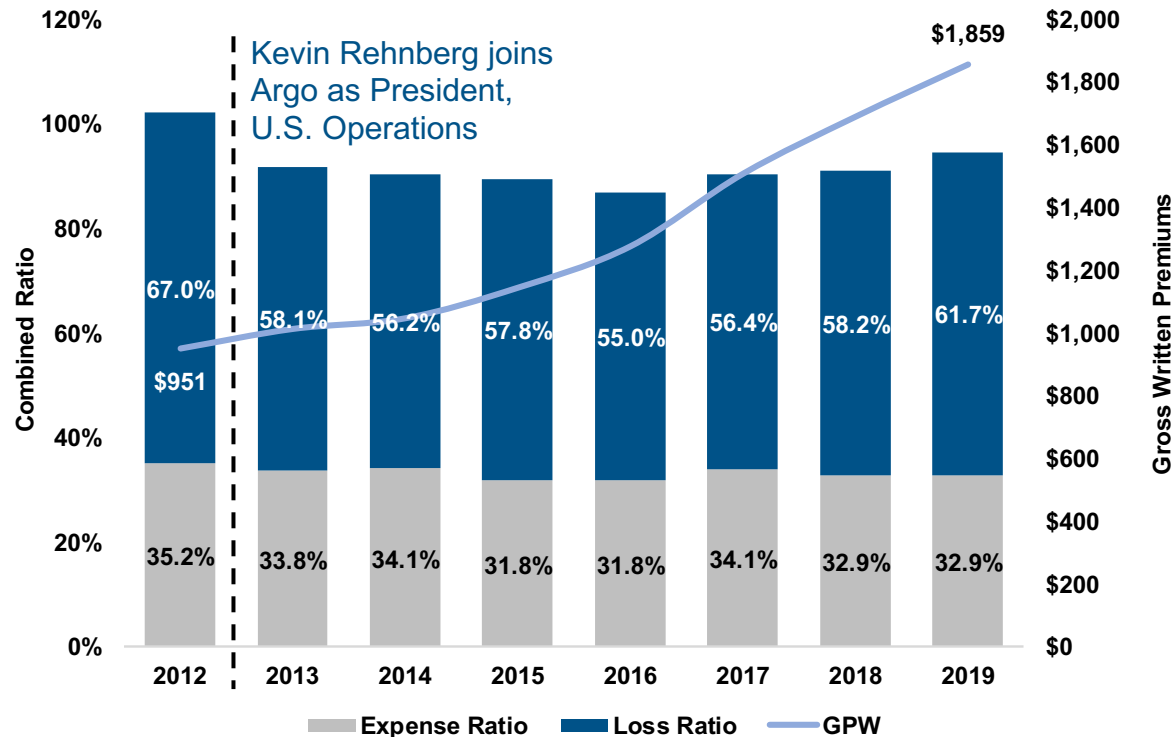

Approximate Geography of Risk

Leadership With A Track Record of Performance

CEO Kevin Rehnberg oversaw a successful turnaround of Argo's U.S. Operations since joining in 2013, and has maintained consistent and profitable results

Argo U.S. Historical Results

Key Accomplishments 2013-2019

- Gross written premium compound growth rate of 11% since 2013
- 200+ basis point improvement in expense ratio since 2012
- Cumulative loss ratio of 57.8%, including catastrophes and prior year development, since 2013
- Cumulative combined ratio of 90.9%, including catastrophes and prior year development, since 2013

Argo Is A U.S. Focused Insurer and Reinsurer

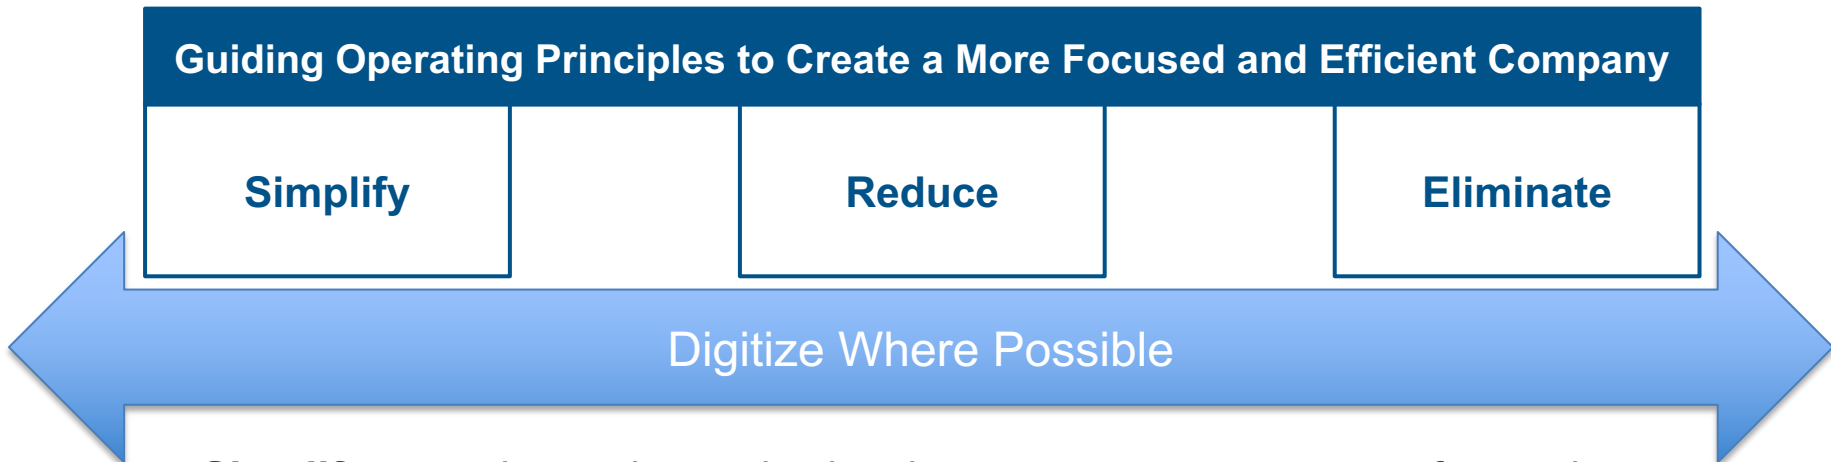

The U.S. is the predominant specialty insurance market

Approximately 80% of Argo's gross premiums come from U.S. domiciled risks today, written out of U.S. and international markets

Fundamental Operating Principles

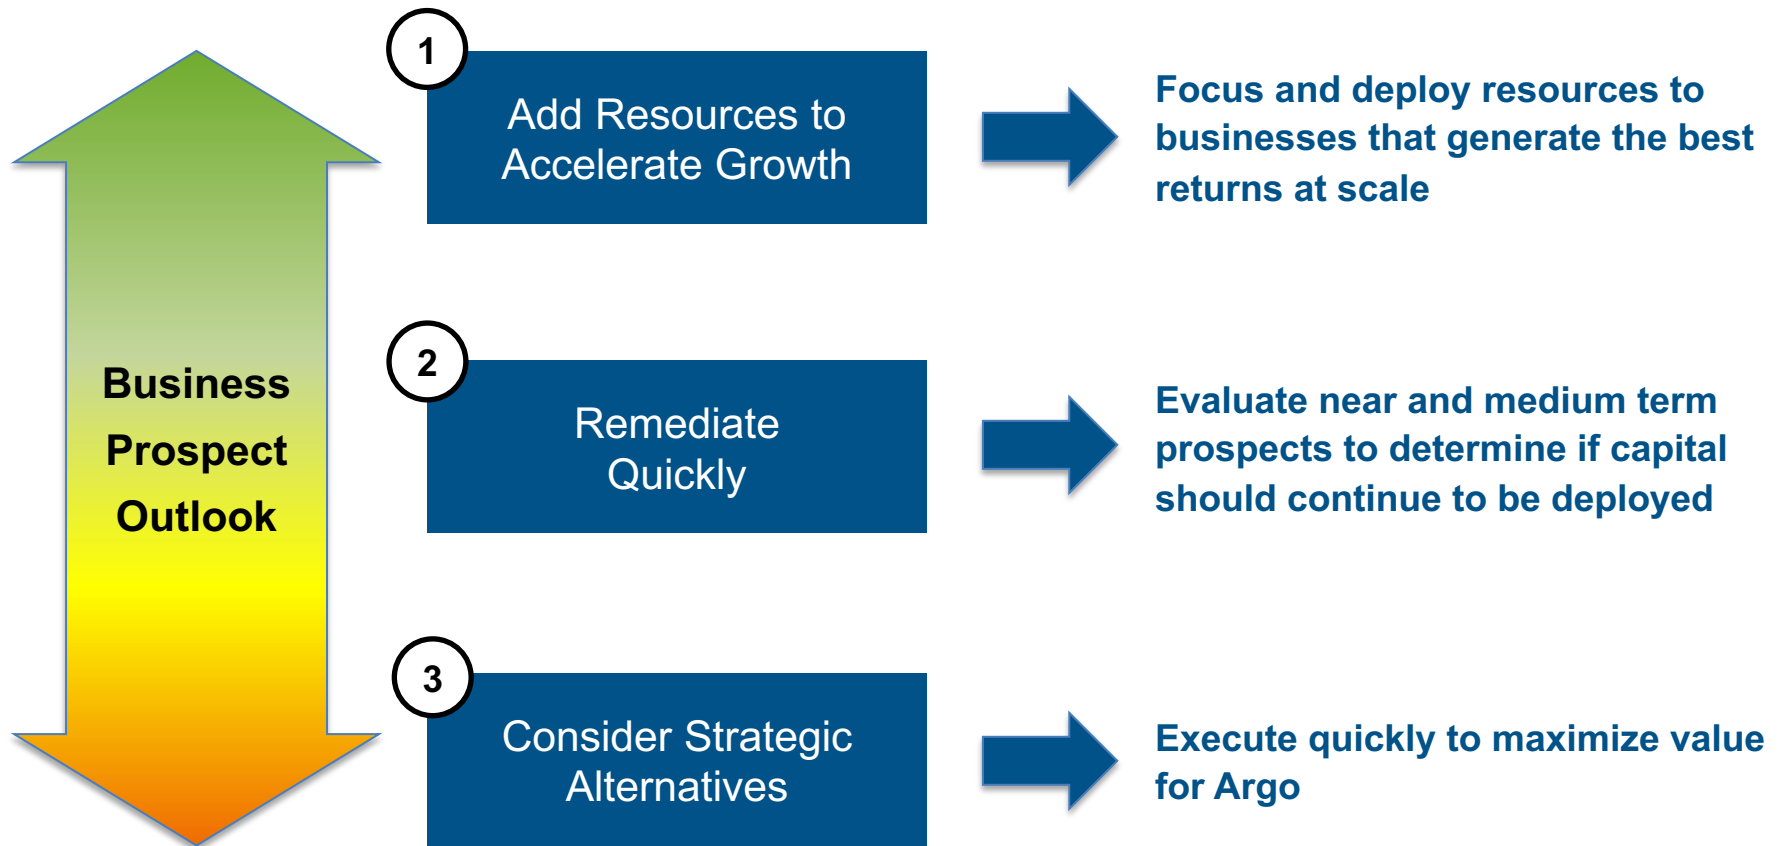

Argo's fundamental operating principles are designed to create an efficient organization that is focused on delivering results and improved shareholder value creation

- **Simplify** operating and organizational structure to create a more focused company
- **Reduce** inefficient uses of capital and resources by shrinking non-core businesses
- **Eliminate** duplicative functions and wasteful spending that does not support our strategic goals

Establishing The Way Forward

Foster a culture of accountability for successful execution of strategic plans to improve returns by deploying capital to the businesses with the best outlook for return on capital

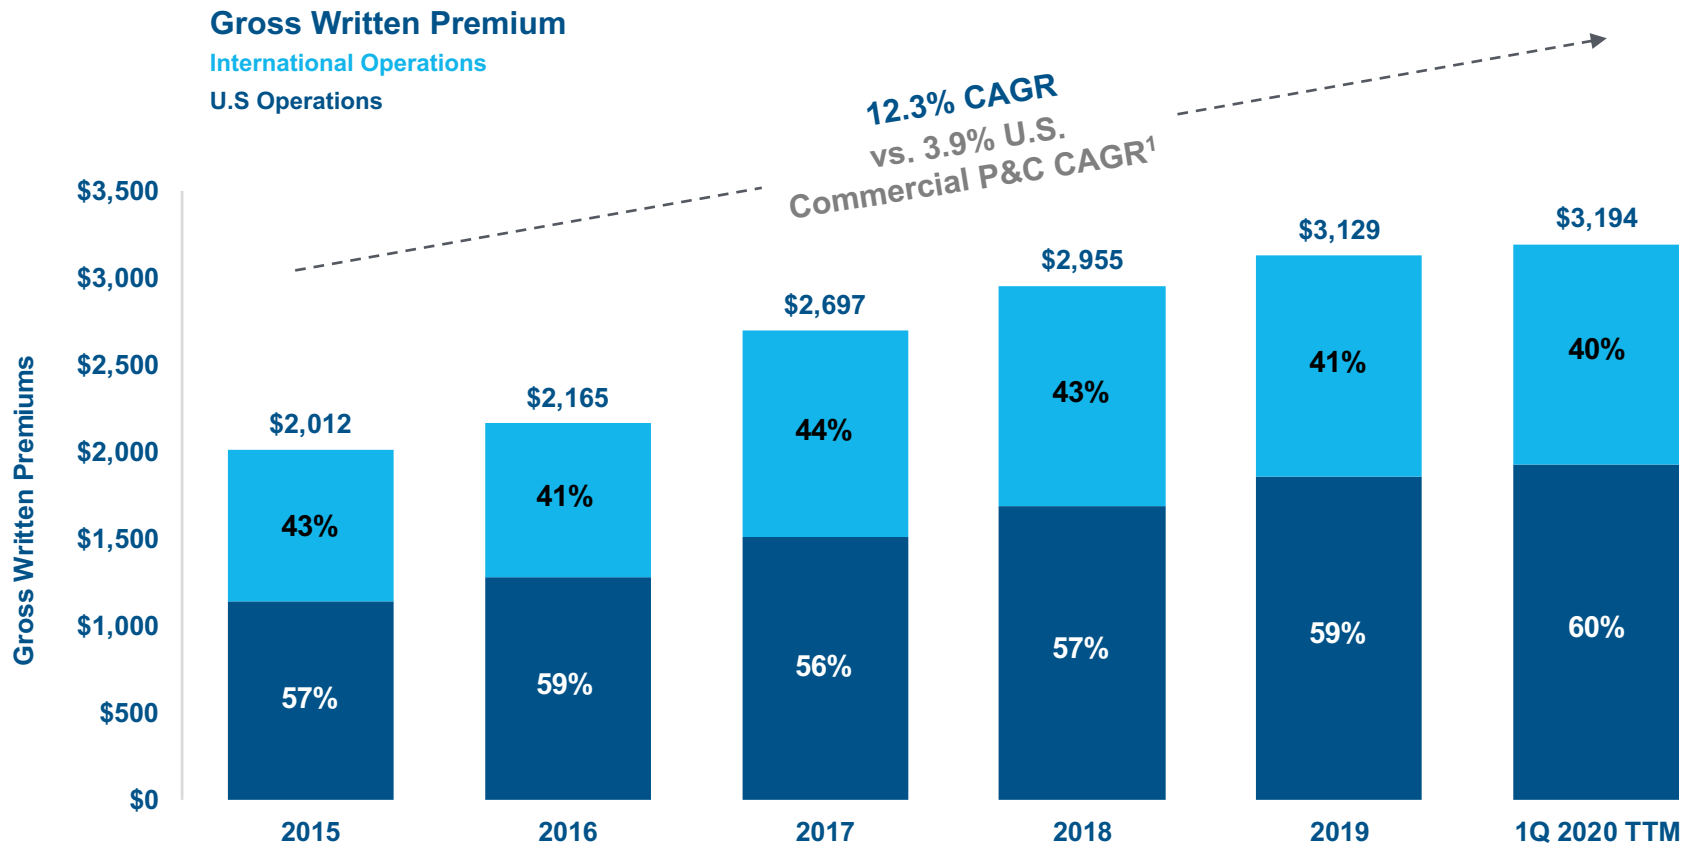

Recent Actions Taken

Actions taken in recent months to shrink non-core businesses, accelerate growth and reduce our expense base are initial steps aimed at achieving our long-term strategic and financial goals

- ✓ **Exited operations in Asia and most hull business within Syndicate 1200**
- ✓ **Eliminated regional underwriting office for Latin America**
- ✓ **Closed on agreement to sell Trident Public Risk Solutions**
- ✓ **Exited aircraft lease and put certain corporate real estate up for sale**
- ✓ **Ended most marketing and sponsorship contracts**

Argo's Growing Specialty Insurance Platform

Argo has delivered sustainable premium growth through both organic channels and selective acquisitions, while also exiting underperforming business lines

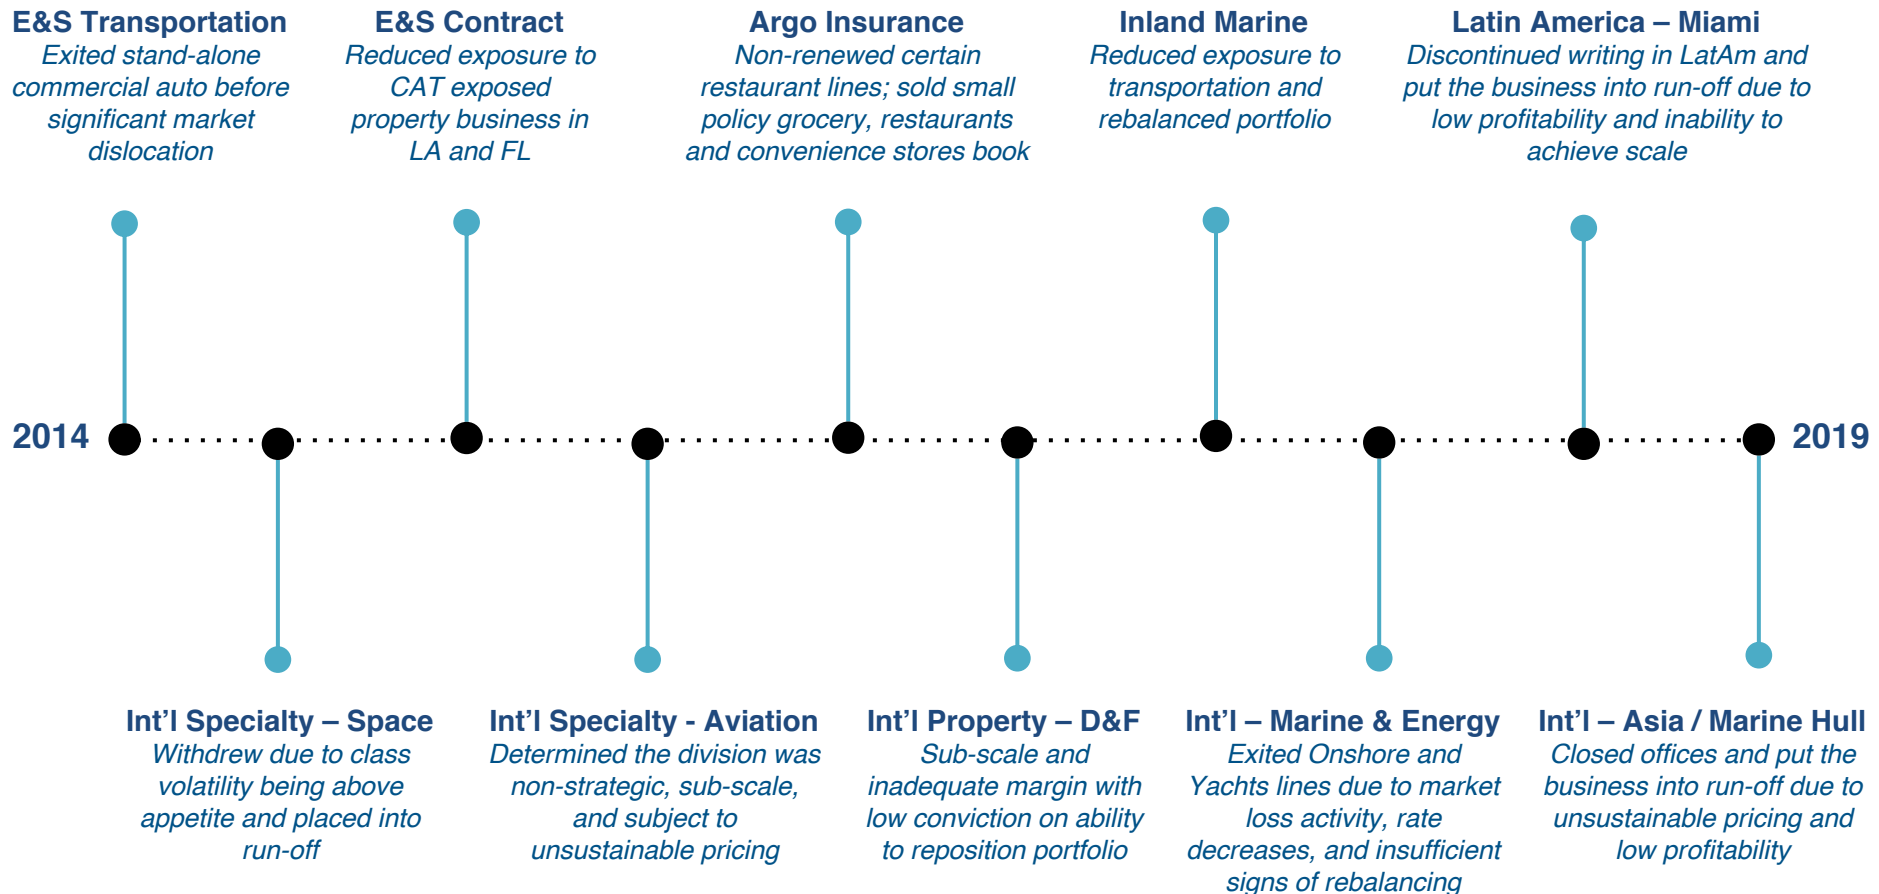

\$ in millions.

(1) Commercial Line Direct Premium Written CAGR per SNL Financial.

Portfolio Rationalization: An Ongoing Process

Argo takes thoughtful and strategic action to improve underwriting performance by reducing exposure or exiting certain product lines when returns are not expected to meet our targets

U.S. Operations (60% of GWP)

GWP by Business Mix
