

# Heavy Equipment Operator Slip and Fall Prevention

**CAUTION  
FALL HAZARD**

**Equipment operators are subject to falls from equipment during repair work. Prevent slips and falls by doing the following:**

- **Survey work area on and around equipment for slip and fall hazards and remove from area.**
- **Never jump from equipment to the ground.**
- **Use three-points of contact when climbing equipment.**
- **Get help if you need to move tools, equipment or parts to and from the equipment.**

Rockwood Casualty Insurance Company (Rockwood) may provide safety management services to its insureds in order to reduce the risk of loss that may lead to insurance claims. The information and advice we provide is not intended to include all possible safety measures and controls. Rockwood does not warrant that losses and claims will be avoided or mitigated if our recommendations are followed. The safety management services we provide do not relieve the insured of its own duties and obligations with regard to safety matters, nor does Rockwood guarantee to the insured or others that the insured's property and/or operations are safe, healthful, or in compliance with applicable laws, regulations or standards. The insured remains responsible for its own operations, safety practices and procedures and should consult with legal counsel and safety professionals, of its own choosing, as it deems appropriate.
